

LifeSource Health, Inc. Retains Health Information Network Industry Veteran Dee Cantrell

Will Assist in Nation-Wide Rollout of Real-Time EMS Mobile Platform "At The Scene" Beginning in Georgia

ATLANTA, GA / ACCESSWIRE / November 30, 2016 / LifeSource Health, Inc. a Syracuse New York based company is pleased to announce the addition of Dee Cantrell, RN, BSN, MS, FHIMSS, CIO to their executive management team. Dee has 35 years of healthcare experience with 24 in health information technology, strategy and operations and recently retired from [Emory Healthcare](#) where she served as CIO for the last 16 years. She is the only professional to be named Georgia CIO of the Year - twice. Dee has worked with major academic institutions, not-for-profit healthcare delivery systems, community providers, large physician practices, managed care organizations as well as federal and state agencies. She has served in a key leadership role for the strategic plan, technology implementation and sustainment of the state wide Health Information Exchange (HIE) for Georgia, as chair of the Technology Committee and as member of the Board of Directors for the [Georgia Health Information Network](#) (GaHIN). Additionally, she is the President of the [Georgia Chapter of Health Information management Systems Society](#) (HIMSS).

"We couldn't be more pleased to bring someone the caliber of Dee Cantrell to our team. Dee brings significant healthcare knowledge and leadership and will oversee the promotion and rollout of LifeSource's mobile platform "AtTheScene™" - a real-time mobile application designed to provide first responders with vital health information when the patient is most critical," said Timothy Kelly, LifeSource Founder and CEO.

Dee Cantrell adds, "When you realize that [medical misinformation errors lead to over 240,000 deaths](#) and hundreds of millions of dollars in unnecessary spending each year it's comforting to know that LifeSource's AtTheScene mobile platform can significantly increase the speed and quality of care and save lives in the process."
