No Clinical Quality Measures were tested under this certificate.

C. Additional Software:

AtTheScene V1.0 is a cloud-based solution; an internet connection is required.

AtTheScene V.1.0 provides information through its relationships with Health Information Exchanges and other data sources.

D. Additional Costs:

The AtTheScene V1.0 is a cloud-based solution that works across Android, iOS and PC. Purchaser must have a device that can connect to the internet in order for full use of as-certified functionalities and features.

The EPCR with which AtTheScene V1.0 is integrated, and through which the Purchaser will subscribe, is responsible for disclosing additional costs and limitations associated with that integrated relationship for the integrated offering made available to the Purchaser.

► If not provided for in base Integration Agreement with purchaser's EPCR provider and LifeSource Health, Inc.:

- A one-time installation fee may be required for end users.

- A per transaction query fee will be charged to the end user.

- If purchaser requires non-standard and or customized server environments other than the standard cloud-based configuration, and or site-specific instances for server-side installations and access, such needs will incur additional hardware, configuration and support costs directly related to those non-standard configuration requirements.
- If purchaser requires non-standard, customized and or proprietary level(s) of Technical-, Clinical-, Specialty-, and or End-User Implementation and or Support such as, but not limited to: operational and or functional methods, practices, branding, marketing and or promotion, technology, third-party integration, documentation, and or in- and or out-of-scope compliance, purchaser is aware that additional costs may be associated.

► If not provided for in base Integration Agreement with purchaser's EHR provider and LifeSource Health, Inc.:

- Purchaser shall be responsible for any additional charges imposed by Purchaser's HER provider, as well as any charges, fees or taxes imposed on the services provided.

E. Limitations and Advisements:

- AtTheScene V1.0 utilizes CCD Standards and Pix querying, as of this certification date.
- AtTheScene V1.0 is a cloud-based solution. An internet connection is required by the purchaser and the user-base.
- AtTheScene V1.0 is an ONC Certified Health IT platform.

F. Contacting LifeSource Health, Inc. End user support:

- End-users of AtTheScene V1.0 may email their support request to the LifeSource Health Inc. Customer Support department at: support@alifsourcehealthinc.com.
